Morning,

As you would have seen in my earlier email there is a slow roll taking place North of the border in Emerson but there have been no operational impacts.

As well, I am pleased to report that it is quiet at the POEs with respect to traffic coming in for protests, and also on security of BSOs/CBSA infrastructure front.

Thanks,

Robyn

Subject: Trucker Preparation - POEs

Good Evening,

As you aware we have been tracking the various Trucker protests and taking steps to mitigate any impacts to our Operations.

Part of this preparation involves our response to exceptional events, such as the potential need to urgently close a POE due to protest activity. For example, if there is an event that threatens Officer security, instructions have been issued to lock down the POE.

The CBSA has a reporting protocol in place which will ensure that your office is made aware of any closure and event as soon as possible.

Our Comms team will also be engaged should we need to close a POE, and will work quickly to issue updates on social media and on our external web site. In addition, should this closure impact one of our largest 26 POEs, a Border Alert is sent to a list of external and internal clients who have subscribed to receive updates on closures.

We will continue to keep you updated, and please let me know if you have any questions.

Thanks,

Robyn
